palmedic.eu

Palmedic provides the European and International markets with high quality medical disposables, especially designed and manufactured for local requirements and OEM customers.

From our office and production facilities in Lichtenvoorde, the Netherlands, international sales is executed through a global network of distributors. Palmedic, growing rapidly, is exporting her products worldwide.

Since 2001

The history of our family owned business goes back to 2001, and is filled with innovations that enhance the quality of our products in order to serve patients and healthcare workers. Today our range of products is growing rapidly, and we will continue to do so.

Innovative

Palmedic is an innovation-driven company. Often we are the first to introduce a new type of product developed in-house, in close cooperation with healthcare professionals and the equipment manufacturers.

Palmedic offers a broad range of solutions and product lines for wound care, accessories for Ultrasound Imaging, draping for medical robotics, Personal care, radiology and Hygiene products.

Tailor-made

Are you looking for a tailor-made solution to cover your equipment safe and clean? We are happy to help you. Together we will find a solution.

Worldwide

Palmedic exports her products to more than 45 countries worldwide and there are more and more satisfied customers.

Personal contact

Personal contact that is what it is all about. Developing new ideas and products together. The basis for a long-term cooperation.

Fast delivery

Waiting endlessly for your goods? Not with us. We deliver as agreed.

Customer satisfaction

Are you satisfied? Then we are too, but we always go one step further.

palmedic
tailor-made solutions

Our brands

 **probetection™**

A complete line of protective covers for ultrasound transducers.

 **bandafix®**

Woundcare, for a fast and secure fixation of wound dressings.

 **puracloth™**

Personal care, two different types of wash mitts, and a self-foaming cloth for a patients daily bath.

 **purasoft™**

Their easy disposal after use also cuts laundry costs.
