Personal care

Self-foaming
wash cloth

Dry wash mitts

Two different types
of wash mitts, and a
self-foaming cloth for
a patient's daily bath.
Their easy disposal
after use also cuts
laundry costs.

With our complete line of products we offer the patients the right protection against cross contamination. We work every day to improve the safety of patient care.

Puracloth™ Self-foaming disposable wash cloth

Puracloth™ is a soft foam cloth for full and partial body & hair cleansing and moisturizing. Puracloth™ is skin friendly, non-sensitizing and free of preservatives. Simply add water to activate the foam.

Purasoft™ Disposable wash mitts

Purasoft™ is a soft wash mitt ideal for a patients daily wash. The tear proof, non-woven, gives Purasoft™ superior softness, water absorption capacity and strength. Purasoft™ is packed in a handy re-closable bag.
